

ACCESSING E-MAIL THROUGH YOUR KATE™ ACCOUNT

You can check your E-mail with your new Kate account. If you want to access any E-mail account through Kate, follow these instructions.

1. Go to **www.phonekate.net** and login.
2. After you login, go to **My Account**
3. Click on the **E-mail Account**
4. Fill in the following fields:
 - User Name:** This is your E-mail user name given to you by your ISP. Frequently, it's the part of your E-mail address that precedes the "@" symbol.
 - Password:** This is your alphanumeric E-mail password from your ISP.
 - Re-type Password:** Re-enter your password in this field to provide confirmation.
 - Service Provider:** Select your provider's name (e.g., "Yahoo"). If your provider is not on the list, select Other.
 - Server Name:** If you selected Other in the Service Provider field, you need to enter your E-mail server name here. You will likely need to contact your Internet Service Provider (ISP) for this information.
5. Click on **Save**
6. You have successfully set up Kate to access your E-mail!
